## FULL-STACK DEVELOPER

Hyderabad • [bandanpradhan456@gmail.com](mailto:bandanpradhan456@gmail.com) • [+91-7077407660](tel:+91-7077407660) • <https://bandan.dev>

### Profile summary

Highly skilled and motivated full-stack Developer developer with 2.5 years of experience in developing CRM software & E-commerce Applications using JavaScript, TypeScript, React, and other modern technologies. Seeking a challenging position where I can utilize my expertise to deliver outstanding user experiences and contribute to the success of a dynamic development team.

### Work Experience

#### Full-stack Developer

March/2023 to Present

Sayana Worldverse pvt ltd I Hyderabad

- As a full-stack developer, I single-handedly conceptualized, designed, and deployed a dynamic company portfolio website. I utilized React JS and CSS to craft an aesthetically pleasing and responsive frontend. The backend was built using Node.js and MongoDB, forming a RESTful API that efficiently managed and delivered portfolio content.
- I implemented an easy-to-use admin dashboard for effortless content management, including blog post and image uploads. This responsibility extended from the initial concept to the final deployment, covering both frontend and backend development.
- In addition, I developed and maintained a multivendor ecommerce web application using React JS with TypeScript and Redux store for state management, ensuring a seamless user experience. The backend for this application was developed using Node.js, Express.js, and MongoDB as the database.
- I successfully integrated a RESTful API to fetch real-time data, which was displayed on an admin dashboard. I also developed intuitive and feature-rich admin dashboard interfaces, enabling vendors to efficiently manage their products, orders, and inventory. This experience showcases my ability to deliver comprehensive solutions in web development.

#### Front-end Developer

February/2022 to March/2023

Tranquil Web Solution I Hyderabad

- 1 years of hands-on experience building dynamic web applications with React.js. Proficient in creating user-friendly and responsive UI
- implemented RESTful APIs for seamless front-end/back-end integration.
- Familiarity with Tailwind CSS for efficient styling and design implementation
- Created scalable web applications using cutting-edge JavaScript technologies.
- Participated in developing the architecture for new projects and provided guidance on best practices and future technologies.
